

**INDUSTRIE TESSILI BRESCIANE**

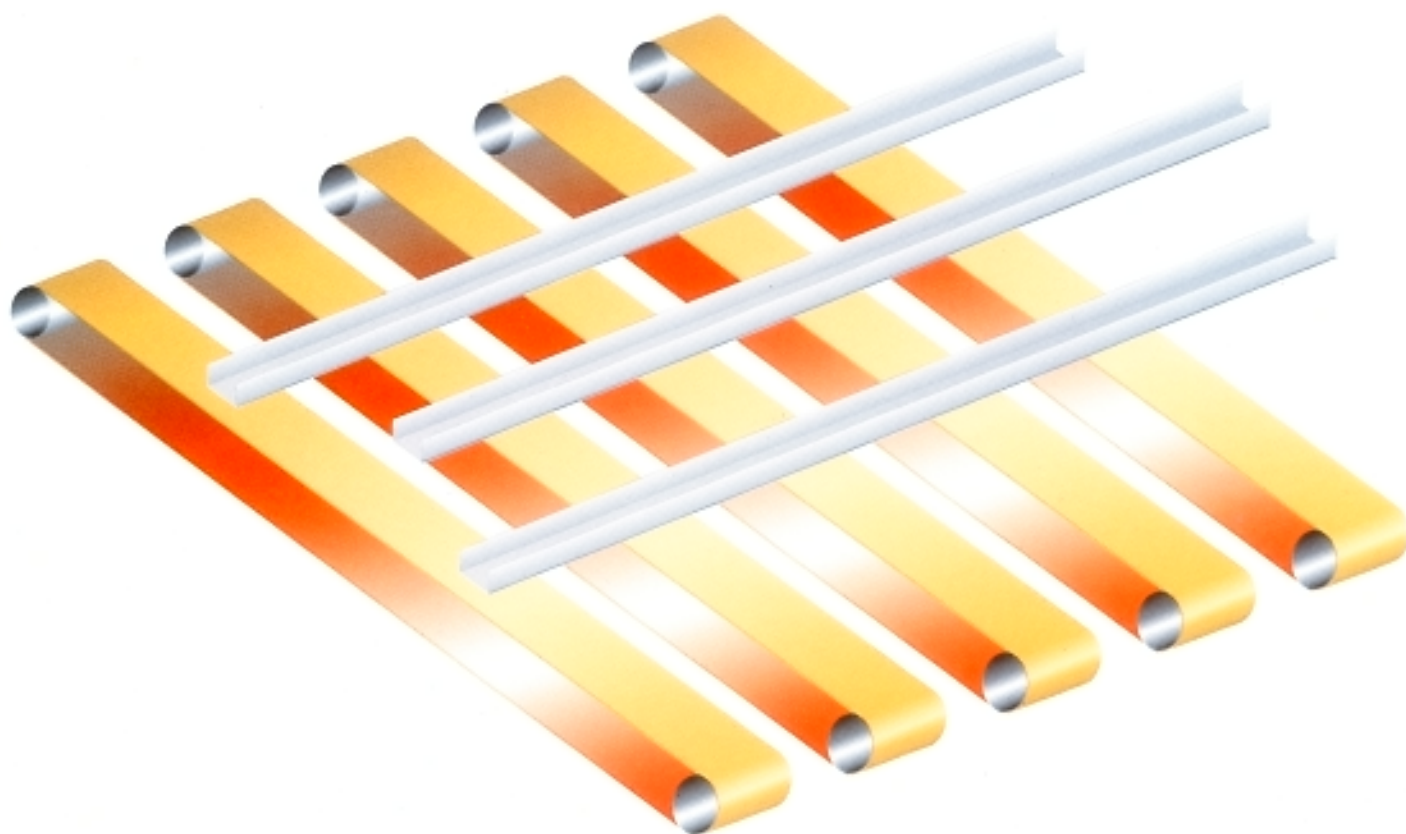

## **ALUBELTS® : Seamless Conveyor Belts for the Cooling Tables of Aluminium Extrusions**

Since the beginning of the 20<sup>th</sup> century I.T.B. has been manufacturing fabrics and endless conveyor belts which are used in various industrial fields. The experience acquired so far, as well as custom-built equipment now enables I.T.B. to offer the extrusion industry the high-tech ALUBELT® for the cooling tables of extrusion presses.

Our ALUBELTS® bear the following features:

- Heat resistant to 550° C
- No elongation under high tension and heavy loads
- No seam, splice or joints: no breaks due to weak zones
- High density structure
- Smooth and even belt surface: scratch-free extrusions
- Excellent belt tracking on the cooling table

**Patented in the USA and in Europe.**
